Title: METHOD OF FORMING A TRENCH STRUCTURE

RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents & Trademarks
P. O. Box 1450
Alexandria, VA 22313-1450

In response to the Restriction Requirement mailed on 29, 2006, Applicants hereby provisionally elect species II (claims 11-20) the claims readable thereon being 11-20. This election is made with traverse, and Applicants hereby reserve the right to file a divisional application in connection with unelected claims 1-10.

With regard to the Restriction Requirement, Applicants respectfully submit that the subject matter of all claims 1-20 is sufficiently related that a thorough search for the subject matter of any one group of claims would encompass a search for the subject matter of the remaining claims. Thus, Applicants respectfully submit that the search and the examination of the entire application could be made without serious burden. See MPEP § 803, in which it is stated that "if the search and examination of the entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to independent or distinct inventions" (emphasis added). Applicants respectfully submit that this policy should apply in the present application in order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Respectfully submitted,
